Faultless Starch/Bon Ami Company Purchases “Green” Lawn Chemical from Florida Inventor/Entrepreneur

Kansas City, MO – Garden Weasel, a unit of the Faultless Starch/Bon Ami Company, announced that it has purchased Agralawn, a family-owned maker of lawn treatments chemicals made from natural ingredients.

“The time is right for Garden Weasel to extend into non-toxic lawn chemicals,” said Webster Thompson, Vice-President of Sales for Garden Weasel. “The ‘organic’ section of the store is growing, and people can use our non-motorized, non-polluting Garden Weasel® tools in combination with these safer chemical products. You are seeing higher purchase of ‘green products’ for the garden and we want to be a bigger part of that earth friendly trend.” Agralawn Crabgrass Killer, the main product in the line, will be renamed Garden Weasel AG Crabgrass Killer.

Faultless purchased certain assets including the patent rights to a selective weed killer, from Scott Grimm, a Florida inventor/entrepreneur. Faultless paid Grimm an up front sum, and will also pay him a continuing commission on every bottle sold for the life of the product. He will continue to help Faultless in marketing the product and the company and Grimm are discussing partnering on additional inventions in the future.

Grimm, a professional lawn maintenance provider by profession, developed and patented a new form of Crab Grass killer that selectively kills a large variety of weeds and roots safely with no harm to children, pets or to the environment. With over twenty-five years of experience in the professional lawn care business, Grimm developed his safe and effective weed killer to help reduce the need for harmful toxic chemicals.

Grimm was the winner of the Inventors Club of Kansas City’s 2nd annual Faultless Starch/Garden Weasel Invention Contest in August of 2007.

Faultless is seeking new inventor partnerships. Inventors are invited to submit patented and patent pending products for the upcoming ICKC’s 3rd annual Faultless Starch/Garden Weasel Invention Contest on August 12, 2008. Faultless will consider the top submissions for a potential licensing deal. Submit all products to contest@InventorsClubofKC.org for screening. The inventors of the top 20 products will be invited to present on August 12th. Go to www.InventorsClubofKC.org for more details. “Contest 2008”

Faultless has sold millions of inventions such as the [Garden Weasel®](#), [Garden Claw®](#) and [Weed Popper®](#), along with many other new products. They look to continue to offer inventor partners a gateway to the mass market. Through the [Faultless Inventors](#) site and [Inventor Contests](#), Faultless seeks dynamic new inventions.

The [Faultless Starch / Bon Ami Co.](#), an international consumer products company and has sold consumer products since 1887 and their products are sold in the United States and internationally in a variety of channels from mass merchandise to gift stores and the internet.
